Applicant

RESEARCH SURGICAL PTY LTD et al

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary examination report and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translations to those Offices.

4. REMINDER

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices)(Article 39(1))(see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/AU03/00478

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims 1-19	YES
	Claims	NO
Inventive step (IS)	Claims 1-19	YES
	Claims	NO
Industrial applicability (IA)	Claims 1-19	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

None of the citations listed in the International Search Report discloses blades that are:

- i) engageable with a series of abutment edges in the longitudinal direction of the arms (claims 1, 2);
- ii) lockable to the arm against longitudinal displacement by displacement between the mounting portion of the blade and the arm after movement of the blade into a selected longitudinal position along the arm (claims 13, 17); and
- iii) lockable to the arm by skewing the mounting portion of the blade on the arm (claim19).

Therefore, the invention as defined is both novel and inventive over the prior art.
